## ABOUT ME

My name is Ferran and I am 24.

I am a Software developer focused on Back end. My primary goal is to solve complex problems effectively by writing clean and efficient code. I am open to using any tool or language necessary to find the best solution. I have a strong willingness to learn and adapt, and I am committed to continually enhancing my skills.

## EXPERIENCE

**GEN72**, Castellón, Spain — Full stack software developer

MAY 2022 - PRESENT

Gen72 is a startup specializing in IT solutions, primarily serving insurance experts and adjusters. As a small company, I've taken on a range of challenges, often requiring me to proactively learn and apply new technologies to meet evolving needs and deliver innovative solutions.

- **Python, VBScript, JavaScript, TypeScript.**
- **FastAPI, Selenium, Ionic, OpenTok, Biostar, Docker.**

**Miel y Sabor**, Castellón, Spain — Full stack software developer

AUG 2020 - JAN 2021

- Miel y Sabor, a honey-producing company, sought to establish an online presence. I took charge of creating their website, managing social media, and executing marketing campaigns, including **Facebook Ads** and **Google Ads**, to help the company effectively reach its audience and promote its honey products.
- **Shopify, Photoshop, SEO**

**EBCD**, Dublin, Ireland — Full stack software developer

APR 2019 - JUL 2019 Internship

- EBCD specializes in crafting websites for local businesses. I was selected for an overseas internship with a scholarship, based on my academic performance. Within EBCD, I undertook a versatile role, responsible for everything the company needed, including backend and frontend development, design, and multimedia content creation.
- **PHP, JavaScript, PrestaShop, SEO, Photoshop.**

## SKILLS

**Python**

**JavaScript · TypeScript**

**ALM · AI-Assisted Coding**
